

F.W.E.—Back in the Family

After a 4 year separation, we are excited to announce that F.W.E. has retained DSA to represent them again in New England. Our companies had enjoyed 20 years together but a line conflict lead to our separation. That conflict no longer exists and we are thrilled to be selling a terrific product and working with the great people at F.W.E.

Mibrasa Charcoal Ovens

Cooking with charcoal is becoming more popular and Mibrasa is the leader in this method of cooking. There are several different models of ovens available plus charcoal grills. Great for meats, seafood, poultry, and vegetables. The flavors are truly amazing so bring your client to our test kitchen so they can play with this incredible oven. Built the old fashioned way...like a tank.

Seeing is believing, schedule a demo in our kitchen.

Rosseto-Bisani

Pasta: Cookers, Extruders, Sheeters and Ravioli Machines

Dome Ovens: Wood, Gas, Combo, Electric, and ROTARY

Espresso: Automatic and Manual, grinders

Juicers and more...

The oven will be installed in our test kitchen in June along with some other RB products. Having your customer test cook their food in the oven is the best way to give everyone comfort in knowing they have purchased the right oven. Please schedule a time with our chef.
